

April block of the month WHEEL OF FORTUNE

This month will be a foundation pieced block of Purple and gold with a white background. The block will measure 12 1/2". UNFINISHED.

You will need to carefully trace, not photocopy each pattern 4 times. For the least amount of fabric waste here is a guide for cutting. The pattern will be available at "A" night.

8 each of background 5 1/4 " x 3 1/4"

4 each of purple and gold 1 1/4" x 5 1/2"

8 each of back ground 3 1/4 " x 5 1/4"

4 each of purple and gold 3 1/2" x 4"

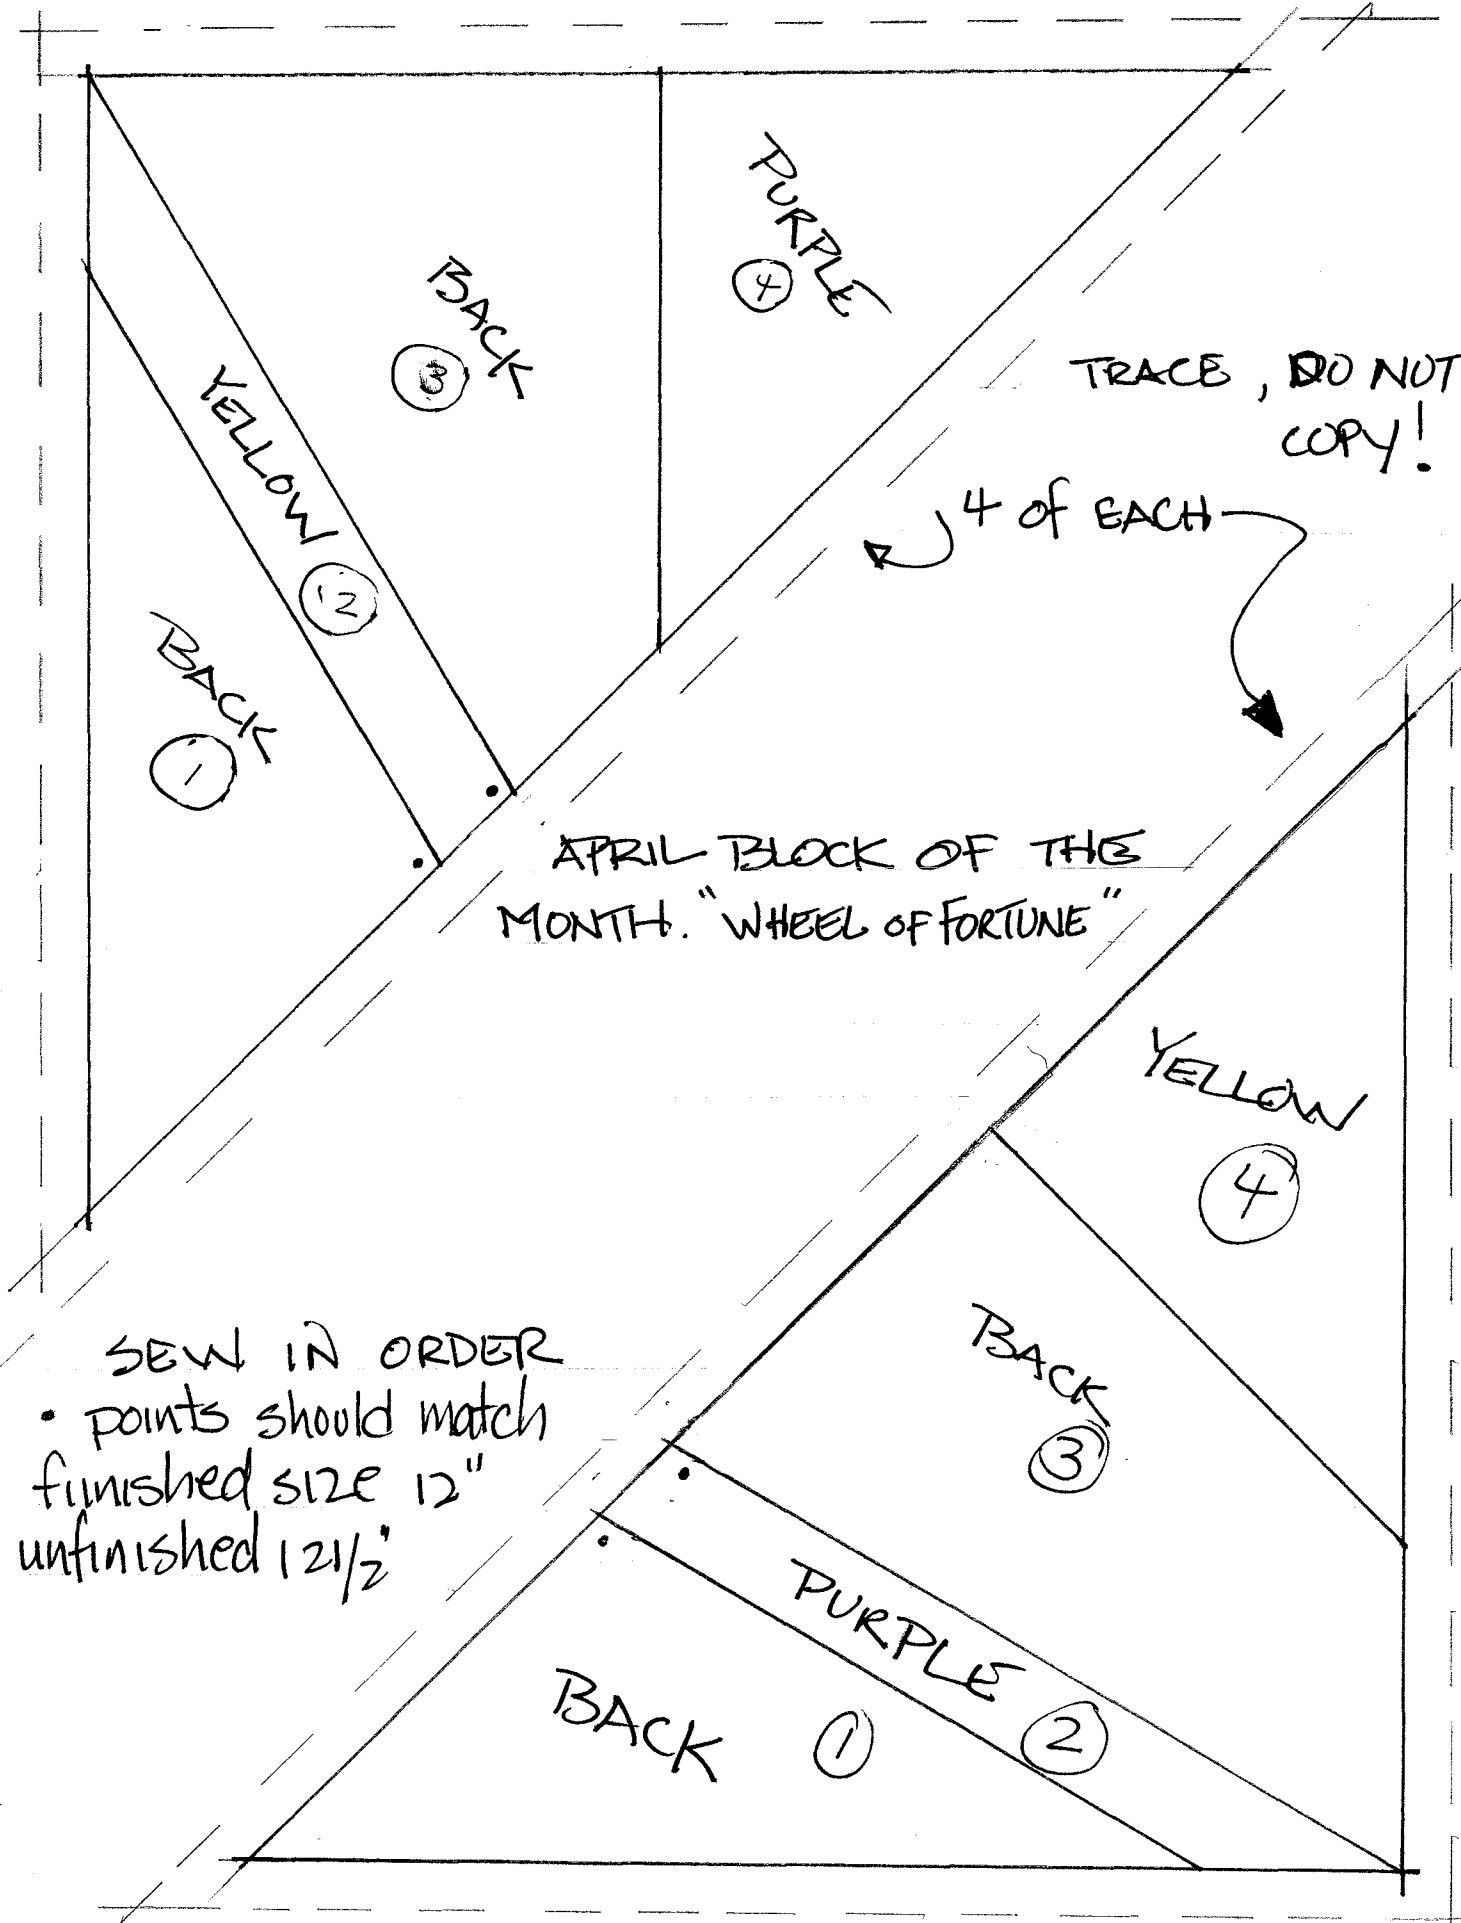

If you trace the two pattern pieces onto freezer paper, the paper will work like pins to hold some of the pieces in place.

To start, press the first fabric to the back (waxy side) of the #1 pattern section right side up, covering seam allowances and the seam line between 1 and 2. Place the second fabric piece on top of the first, right sides together making sure that you have a quarter inch seam allowance. Pin to hold in place. Turn over and sew on the line between numbers 1 and 2 using a shorter than normal stitch length. Turn over and press toward the second fabric. Align the third fabric up with the next seam line making sure you have a 1/4" seam allowance. Holding the piece up to the light helps. Pin in place, turn over and sew on the line between 2 and 3 from the other side. Repeat for the last section.

To sew the units together align the points that have to match on the 2nd sections by pushing a pin in on both seam joints and then on both ends. Pin the units together along the paper edge in a manner that will allow you to remove them while sewing. This helps to keep the seam accurate. Trim seam allowances to 1/4". Do the diagonal seams first. Please remove the foundation paper.

If you have difficulty with this pattern please bring it to "B" night. An experienced foundation piecer will be happy to help.
